RESPONSE

To the Director of Patents and Trademarks

Sir:

In response to the office action dated July 27, 2010,

Applicant provisionally elects Group I, claims 1-10 and 16 and traverses the requirement.

Claims 11-15 depend from claim 1 and should not be restricted.

The two references cited by the examiner have no relevance to the claims and should be withdrawn. Bunge has a high ratio of saturated fats and transfats. McDonald has isolated deamidized gliadin. Neither reference has the claimed features of the invention.
